## Press Release

For Immediate Release: March 19, 2021

### **Digital Message Boards**

The Logan County Engineer is excited to announce that we have received two trailer-mounted Solar Tech digital message boards through the 2018 State Homeland Security Program Grant. They will be stored at the Logan County Engineer's Office, 1991 CR 13, and available for emergency deployment throughout Logan County and the central region (HS4) of Ohio.

Locally, the units are available for emergency uses and roadway projects.

We extend a special thank you to Helen Norris, Logan County EMA Director, for developing the grant application and coordinating regionally over several years to secure these units for Logan County and the region.
