

## **Bridge 21-1.00 Historic Iron Truss Rehabilitation Project Questionnaire**

1. Please describe the historical and cultural significance of this structure:
2. What are your biggest concerns with this project?
3. How should these concerns be addressed?
4. How often do you drive over this bridge?
5. What types of vehicles do you use on this structure?
6. What types of vehicles do you operate that cannot cross this structure?
7. What are your safety concerns with the structure?
8. Please identify intersections in the area that need some improvements to be used as a detour route and describe the improvements needed:

9. What is your recommendation for lighting on the structure?

10. Which option do you recommend?

- a. Proceed as planned with rehabilitation in 2015
- b. Potential alternative 1- rehabilitation in 2015 with a 35 mph curve approach
- c. Potential alternative 2- Apply for funding for 2-lane bridge and new 55 mph alignment
- d. Do nothing

11. Do you recommend forfeiting funding for the rehabilitation even if there is no guarantee that a replacement structure will be funded and it could lead to a long term closure of the bridge?

12. Please identify the locations of the fields that you farm in the vicinity of this bridge by address or detailed location:

13. Additional comments and/or concerns:

Name & Address (optional):
